WOODEN DECK TILE LONG LASTING AND ROBUST

Volume 4

Interlocking DECK TILES

These Deck tiles combine premium quality natural hardwood with a high strength composite interlocking backing. This system features a fastening matrix that is pre secured using industrial strength screws on the underside of the tile. The deck tiles are sold in pieces or sq ft.

They can be installed over any even surface to create your own stunning outdoor entertainment areas. Once our Dekorr Deck Tiles are locked in place, they will create a durable hard wearing deck floor. Our tiles are comfortable to walk on, visually stunning and yet durable enough for any climate or weather.

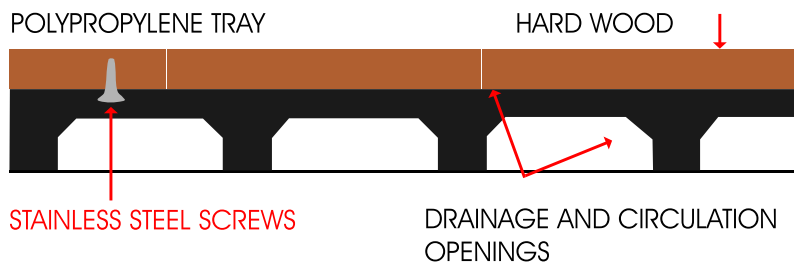

DECK TILES USES

- Urban patios, terraces and rooftop decks
- Large, commercial flat rooftop terraces and plazas
- Deck pedestals for roof pavers: concrete pavers, wood tiles, stone, etc.
- Decks on green roofs creative rooftop decking environments
- Residential decks over cracked concrete patios & on-grade
- Decking and landscaped areas on streets and curbsides
- Commercial decks, residential decks and retrofitted decks
