CORPORATE OVERVIEW

A product design and development company that aims to dominate retrofit smart home automation with global ambitions. Hogar offers customized smart solutions for both new houses that are mostly integrated with smart devices and also for the existing homes that still use conventional technologies.

An IT services and staffing solutions company catering to Fortune 500 clients across the globe. Antra, Inc is known as a dependable human resources partner connecting opportunities with today's top talent. Antra even serves as the talent gateway for Hogar providing fulfilling its niche talent requirements.

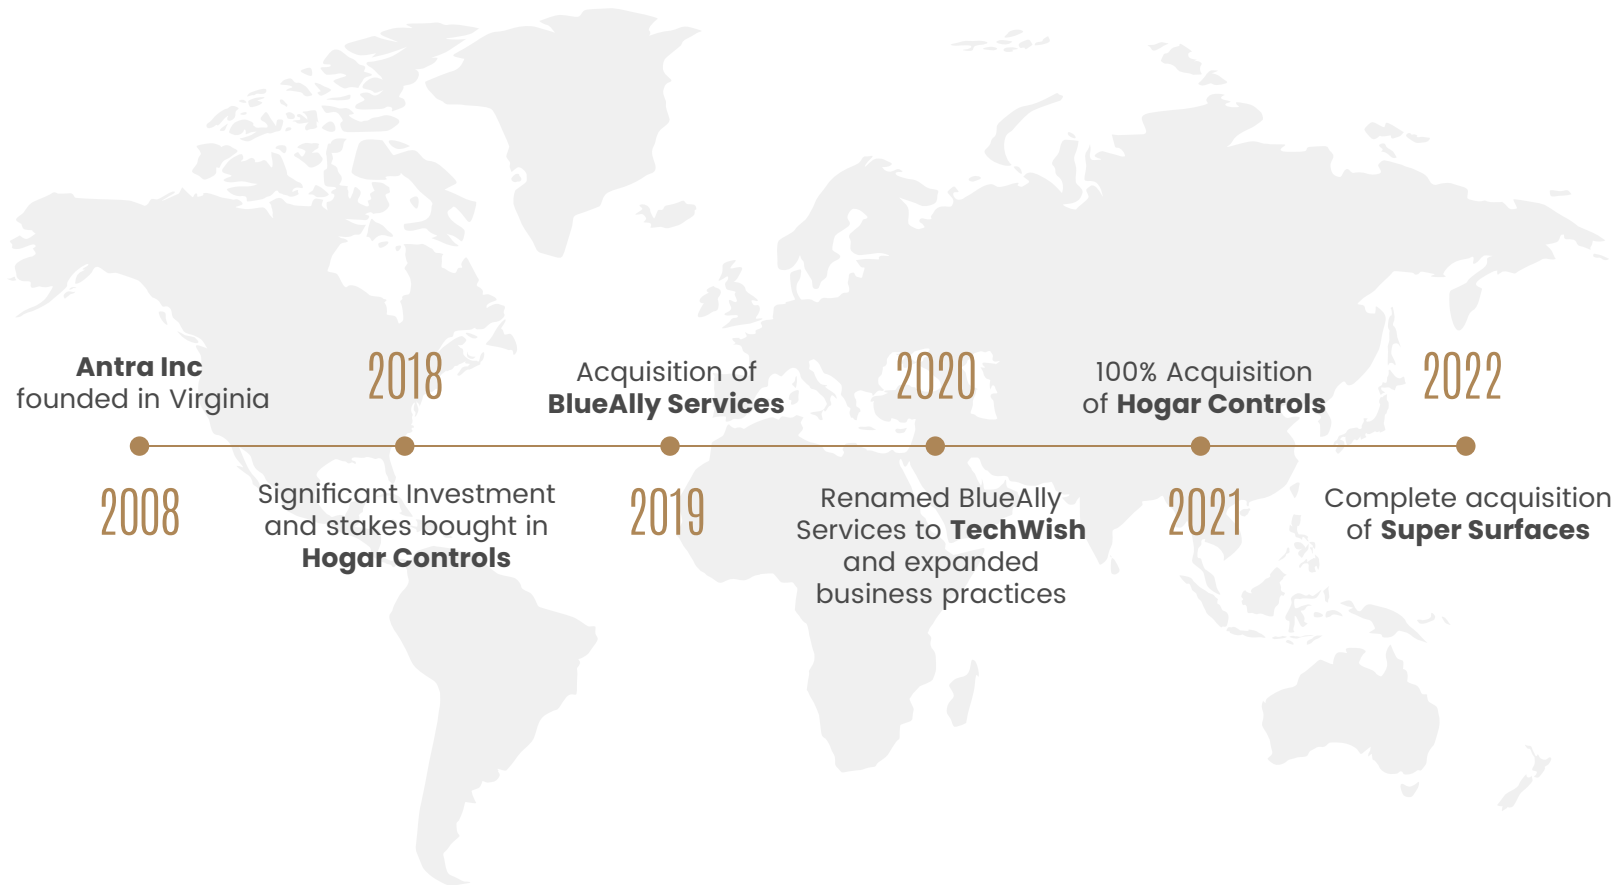

A technology design and innovation company having expertise in Application development, Cloud services, Database management, Data analytics, Contingent workforce solutions, ERP/CRM management, IoT and other software services catering Fortune 100 clients like APPLE, MICROSOFT, GOOGLE etc.

SuperSurfaces is an exclusive supplier of premium Venetian plasters that can transform walls into stunning bespoke designs that are otherwise merely painted. SuperSurfaces has largest collection of wall finishes with a blend of innovation and modern art which can be customized according to your imagination.
